

gialife pendant

Description

The GIALife Pendant provides you with a calming, body-worn bioenergetic solution to help you deal with everyday debilitating stress, including electromagnetic radiation (EMR). Stress acts as an age accelerator, and can also compromise our health, immune system, and our body's natural resistance to negative influences. When using the revolutionary GIALife pendant, you'll experience for yourself its unique energy enhancement qualities.

Benefits

- Energetically optimized with ERT to reinforce your body's natural resilience to the effects of everyday stress
- Supports natural energy, plus mental & physical performance - especially under pressure
- Optimizes your capacity to perform in EMF/EMR-saturated environments

Available As

- Classic Pendant
- Pendant Lite
- Filigree Pendant
- Cross Pendant

Includes

- Each GIALife pendant is sold individually (chain not included)

Technology Used

- Energy Resonance Technology (ERT)

Product Highlights

- Eight out of ten people say that when using the GIALife Pendant(s), they feel significantly less stressed and much more balanced during the day

gialife pendant - FAQ

Can I wear the GIALife Pendant in the shower?

Yes. All of the current GIALife Pendant models are waterproof.

Will the GIALife Pendant interfere with my pacemaker?

No, it will not. The Pendant is non-magnetic and safe to wear with your pacemaker.

If I feel uncomfortable when I first start wearing the GIALife Pendant, what should I do?

Take it off and put it in your pocket for one or two hours per day. Increase to three to four hours a day the following week. After approximately 30 days, your body will adapt to the GIALife Pendant and you can start wearing it 24/7.

What if I don't feel any different within a few days of wearing the GIALife Pendant?

The GIALife Pendant is designed to reinforce your body's biofield. You may not always notice or feel this immediately. We suggest you wear the pendant for a month and then take it off for a day or two. Doing so will make the difference more apparent.

Does the GIALife Pendant contain a battery or any moving parts?

No batteries, no moving parts - just our proprietary Energy Resonance Technology (ERT)!

How is the GIALife Pendant energetically entrained?

The Pendants are entrained in the Energy Elevation Chamber with GIA's proprietary Energy Resonance Technology (ERT), which is a highly effective, trade-secret protected process.
