

i-H2O activation system

#thiswaterdoesmore

Description

The patented i-H2O Activation System is the most profound hydration technology available today. Backed by Nobel Prize winning research, this easy-to-use wellness breakthrough allows you to transform ordinary, filtered water into ultra-hydrating "intelligent water" within 30 minutes. During the automated i-H2O Activation process, the chaotic structure of water molecules is transformed into single-file alignment (SFA), mimicking our body's own natural state of healthy cell water, creating optimally energized, bio-available water.

Benefits

- Helps to significantly increase the body's hydration levels
- Supports optimal nutrient absorption
- Helps the body's natural detoxification process, in turn supporting a healthy intestinal flora
- Assists the body in balancing pH-levels
- Promotes youthful skin by assisting natural skin hydration & collagen production
- Helps in neutralizing free radicals
- Supports powerful antioxidant effects
- Shown to display antibacterial and anti-fungal properties

i-H2O System

Contents

- (1) i-H2O Activator with Acrylic Pitcher
- (1) 28 oz Glass Drinking Bottle
- (1) Neoprene Sleeve for Drinking Bottle
- (1) 1/8" 120v Power Supply
- (1) 2 oz Spray Bottle
- (1) 4 oz Spray Bottle
- (1) 8 oz Spray Bottle

Also Available

- i-H2O Activation Travel System
- i-H2O Activation System Combo

Technology Used

- Single File Alignment Technology (SFA)

Product Highlights

- 3 out of 4 people say when they drink i-H2O they "have much more energy throughout the day"
- 8 out of 10 people say that after drinking i-H2O, their "skin looks and feels much better and more radiant"
- 9 out of 10 people feel "more hydrated than ever before" when drinking i-H2O

i-H₂O system - FAQ

Why is i-H₂O's "single-file aligned" structure so important?

When we are born, the water molecules in our cells are aligned in a single-file. Our young body even converts any water we drink into that necessary single-file structure. But as we age, our body's ability to convert the water we drink into the single-file alignment dramatically decreases and our body's hydration levels become increasingly compromised. Also, Nobel Prize winning research from the early 2000's proved that in order for water to be optimally effective in the body, the water molecules must be aligned in a single-file structure.

Can I activate the water for more than 30 minutes?

The optimal activation is 30 minutes. You will not get additional energy absorption by activating for longer than 30 minutes

Will i-H₂O change water's pH?

i-H₂O helps support the body's natural pH balancing process.

Can I use the i-H₂O Activation System for cooking or activating other liquids?

Yes, you can use it for cooking and you can activate water, milk, juice or any other liquid - including wine, coffee, and tea.

Can I wash fruits and vegetables with the i-H₂O?

Yes, i-H₂O has shown to keep washed vegetables and fruits fresher for a longer period of time in the refrigerator.

Can i-H₂O be refrigerated?

Yes. You can store i-H₂O in the refrigerator or at room temperature.

Is it beneficial to spray i-H₂O on my face or body and if so, what benefits could I expect from doing so?

Yes, it is absolutely beneficial to spray i-H₂O water on your face and/or skin. Our skin is the largest organ our body has. Because of that characteristic, the skin has qualities that make it more resistant in some regards than other organs. However, when faced with chemical exposures, as well as physical exposures like heat and cold, plus biological exposures, as well as physical exposures like viruses, bacteria, or even electropollution, it is critically important that skin is optimally hydrated and nourished.
