i-glow™

SKIN OPTIMIZING SYSTEM

We all want our skin to look and feel its best, but **how can we achieve this optimal state?** Introducing GIA's groundbreaking i-Glow Skin Optimizing System! When blended with the patented i-H2O™ Activation Technology, it provides instant hydration, nutrition, and pollution defense for your skin! Expect to experience MORE radiance, MORE even skin tone, MORE hydration, and MORE youthful looking and feeling skin.*

By energetically entraining its world-class "BellaGIA" anti-aging formulations with the proprietary GIAPlex™ technology, GIA Wellness has revolutionized the way skin and body care products are recognized, absorbed and utilized by your skin. GIAPlex™ has been designed to optimize the natural potency, vitality, and life force of every single anti-aging nutrient, so that you get to enjoy the benefits of truly unparalleled product performance.*

*"I have been using GIA i-Glow for just over 30 days - the difference is very noticeable. As someone who has considered EVERY option for a more even skin tone, I am beyond thrilled with i-Glow. In less than a month, my dark spots have become much less visible and my skin looks much more youthful! I'm simply glowing!"**

i-glow™

SKIN OPTIMIZING SYSTEM

*"I didn't realize just how big of a difference GIA i-Glow was making until I bumped into a friend that I hadn't seen in two months. The first thing she said was, 'WOW, your skin looks amazing! What have you been doing?' Since I work full-time while raising my active six-year-old son, I don't have the time to worry about a complicated skin care regimen. All I have done is spray i-Glow on my face during the day, and in the last few months, my occasional breakouts have STOPPED. I look more vibrant than I did before I had my son six years ago!"**

K.B., Carlsbad, CA

FREQUENTLY ASKED QUESTIONS*

How long does one bottle of i-Glow Concentrate last?

One bottle of i-Glow Concentrate is designed to be a one-month supply. When blended with i-H2O™ in the provided 2 oz. ERT-charged spray bottle, one half of the .25 oz i-Glow Concentrate should last for approximately 2 weeks. Usage estimate is based upon 25 uses (pumps) per day, 7 days a week.

Do I need to shake the bottle each time before spraying it?

Never violently shake the bottle. Please refer to the instructions on your i-Glow spray bottle to assure proper blending of the i-H2O and the i-Glow Concentrate.

Is there a limit to how often I can use i-Glow?

The recommended usage is 5-8 times per day. To ensure even coverage of the i-Glow mist on your skin, "pump" the i-Glow spray bottle 5 - 8 times.

Is there an ideal time to use i-Glow, i.e. before bed, in the morning?

You can use i-Glow any time your skin needs nutrition and hydration!

Can I spray i-Glow on my hair?

Although the product is specifically formulated for usage on skin, you can also spray it on your hair. Your hair follicles will love you for it!

Do I need to store the i-Glow spray at a certain temperature?

The cooler the better. Avoid exposing i-Glow to extreme heat.

What is the shelf life of the i-Glow Concentrate?

If unopened, the shelf life of the i-Glow Concentrate is approximately 2 years from the date of purchase.

Are the bottles ERT charged?

Yes. The ERT charge provides the i-Glow blend with the proper energetic signature to assist in optimal nutrient delivery and hydration to your skin.

i-H2O: Your Perfect Nutrient Delivery System

What guarantees optimal delivery of the hydrating, pollution-fighting ingredients in the i-Glow Skin Optimizing System? GIA i-H2O's unique, patented water activation technology literally provides a super-liquid "delivery river," enabling the instant transport and delivery of the unique combination of age-defying vitamins, essential oils, highly effective extracts, and HYDRATION to where your skin needs them most.*
