

At GIA Wellness, the very best of hydration, energy and nourishment is delivered through a breakthrough concept called **AquaGIA** - a “hub-and-spoke” approach to supplying you with the best nutrient and energy formulations, coupled with the most effective liquid delivery mechanism available. At the heart (“the hub”) of AquaGIA lies the patented i-H2O System, a groundbreaking water activation technology, proven to single-file align (SFA) water which as a result becomes 400 times more liquid than conventional water, delivering unprecedented hydration benefits. Surrounding the i-H2O Activation System are cutting edge formulations (“the spokes”) in the areas of Inspired Energy (**TerraGIA** Products), Inspired Nutrition (**NutraGIA** Products), and Inspired Beauty (**BellaGIA** Products).

GIA's Inspired Nutrition products are designed to supply your body with the essential nutrients that most diets lack. When taking NutraGIA products in conjunction with GIA's single-file aligned (SFA) i-H2O, you're assured to receive support in your body's natural absorption and utilization of nature's best!

A collection of GIA's Inspired Energy products is displayed on a green background. In the foreground, there are three black Smart Strip boxes, each containing a different piece of jewelry: a ring, a necklace, and a bracelet. To the left of these boxes is a white Smart Strip device with a black dial. Behind the jewelry boxes are three boxes of Universal Guard, Cell Guard, and Smart Guard. To the right of these boxes is a box of Smart Strips, which features a woman's face and the text "GIA smart strips". The background is a solid green color.

Inspired Wellness includes caring for your skin. The remarkable BellaGIA line of Inspired Beauty products provides instantly visible benefits - through the optimal, single-file aligned (SFA) delivery of age-defying, skin nourishing ingredients. Experience what hydrating "health food for your skin" looks and feels like!
