

SMART SLEEVES

FAR INFRARED & ENERGETICALLY ENHANCED
JOINT SUPPORT BRACES

WRIST

ELBOW

ANKLE

KNEE

Even while living a healthy, active lifestyle, the effects of undue stress can compromise your sense of well-being. The GIA collection of Smart Sleeves are flexible sleeves made with Far Infrared fiber combined with GIA's proprietary blend of energetic properties (ERT), which revolutionizes the way biofield-reinforcing frequencies are utilized by the body's energy field. Researchers have noted that Far Infrared transfers energy purely in the form of heat, which can be perceived by the thermo-receptors in human skin as soothing heat that can penetrate up to 1.5 inches beneath the skin.*

By energetically entraining its groundbreaking "Inspired Energy" products with the proprietary Energy Resonance Technology (ERT), GIA Wellness has revolutionized the way biofield-reinforcing frequencies are utilized by the body's energy field. Through ERT, the body's natural biofield strength is optimized to a level where you can truly thrive energetically, even in the most stressful environments.*

SMART SLEEVE SET INCLUDES:

- ① ERT-Charged Knee Sleeve
- ① ERT-Charged Elbow Sleeve
- ① ERT-Charged Wrist Sleeve
- ① ERT-Charged Ankle Sleeve

Available in: Small, Medium, Large and X-Large

*"As a volleyball coach, I often attend tournaments that last for three days and I can really feel the effect on my knees. . Once I started using the GIA Smart Sleeve on my knees, I felt instant relief, a soothing warmth and much better stability. Love them!"**

M.C., Carlsbad, CA

SMART SLEEVES

FAR INFRARED & ENERGETICALLY ENHANCED
JOINT SUPPORT BRACES

SMART SLEEVE SET INCLUDES:

GIA Knee Sleeve:

The GIA Smart Sleeve for the knee is designed to fit and support the knee joint without easily slipping off. The highly elastic fabric with Far Infrared fiber features three dimensional knit technology and soft edge compression. The sleeve is breathable, comfortable and designed to decrease levels of discomfort, normalize potential swelling, increase activity and ultimately help improve your quality of life.

GIA Elbow Sleeve:

The GIA Smart Sleeve for the elbow helps to relieve discomfort associated with overuse of your elbow (tennis, golf, etc.). Its unique construction made with Far Infrared fiber and entrained with bio-friendly ERT, helps retain body heat by warming the area and supporting normal circulation. It helps relieve energetic discomfort, signs of swelling and stiffness, and supports the body's natural recovery process while providing comfortable compression for weak or over-stressed elbows.

GIA Wrist Sleeve:

The GIA Smart Sleeve for the wrist is designed to help maintain wrist health by providing warmth, compression and support to injured wrists. The power of ERT combined with the customized fit of the Far Infrared wrist sleeve supports the wrist while leaving the thumb and fingers free for full range of motion. The firm support of the GIA wrist sleeve will help keep the wrist aligned and limit movements that would be painful or disruptive to the joint.

GIA Ankle Sleeve:

The GIA Smart Sleeve for the ankle is made with a light-weight Far Infrared fiber that provides support and compression to weak and/or injured ankles, while energetically supporting the biofield through GIA's ERT Technology. The design is based on the human ankle structure and provides stability to the ankle joint in a comfortable, breathable material that provides relaxation and allows the skin to breathe.

FAR INFRARED YARN Special far-infrared cotton yarn supplies negative ions to help support normal circulation and provides energetic assistance to areas in need.

FLEX & COMFORT Revolutionary knitting process offers superior ergonomics and breathability.

COMPRESSION & SUPPORT Unique three-dimensional compression offers optimal joint support during low, medium, and high-intensity activity.

POWERED BY ERT Energetically entrained with GIA's proprietary, bio-friendly Energy Resonance Technology (ERT) to support the body's natural ability to alleviate stress and physical discomfort.
